

Major Release **2022.1.0**

What's new ?

Fast**&**4You

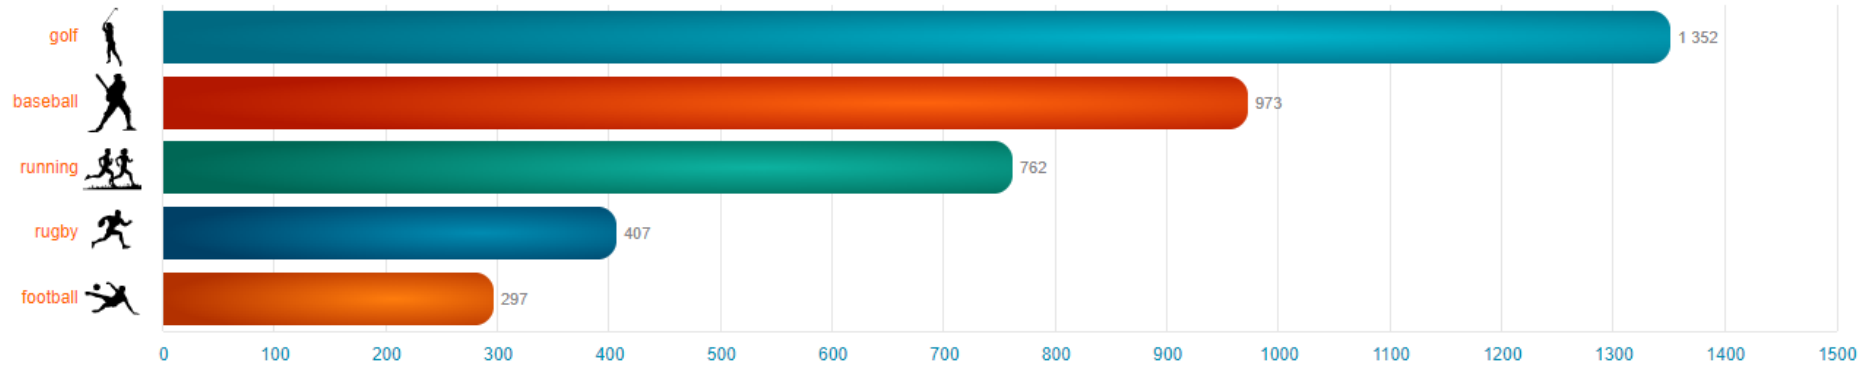

Find here some main **new features** of this release...
The full release note is available [HERE](#)

New component : Times Bars Race

A new animated chart is available ! Display a **bars race** of values along a time axis.

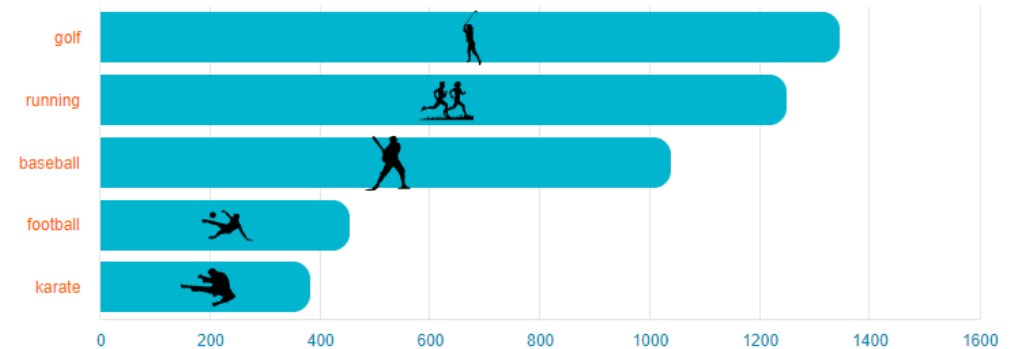

Use your own time axis
based on
years/quarters/months
... or time

Use the play/pause/stop buttons or range slider to **navigate through the race**

2017-06

Use **icons** on X-Axis and/or inside/end of bars to get a more readable chart

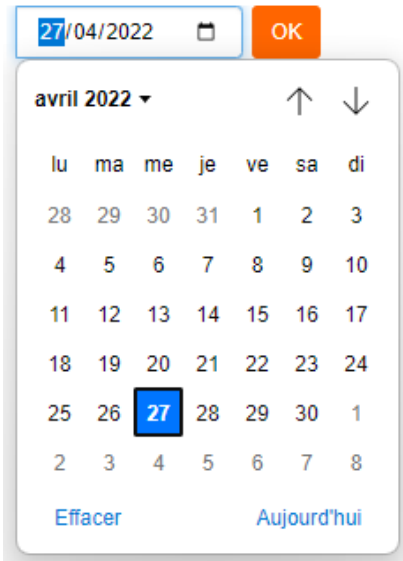

2018-08

New component : Navigation Calendar Picker

A new navigation component is available ! Select a date, a time, period... intuitively and inside your Webi document/dashboard.

Select a date from the calendar picker

Selected date
2022-04-27

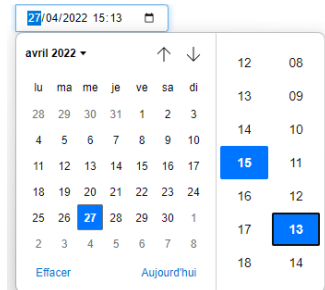

And get the result directly in your Webi variable. You can now filter your report based on this variable

Affect 1 or 2 Webi variable(s) to get a range of period.

As usual, many enhancements have been given to the components. Some of them : **mirroring mode** for **fixed placement columns**, sorting datetime columns in Table Filtered, better render for many components...

California	20.64%
Colorado	5.73%
DC	8.40%
Florida	5.05%
Illinois	8.05%
Massachusetts	3.44%
New York	20.77%
Texas	27.93%

Legend format has been enhanced in the Pictural Stack. Space saving and more readable render

A new mode (**mirror**) is available for the **Fixed Placement Column**. Render your chart in pyramid as you need !

Find here the N4V for Webi roadmap for **2022**.
This forecast is likely to change depending on the needs and requests of our customers.
