The full release note is available [HERE](#)

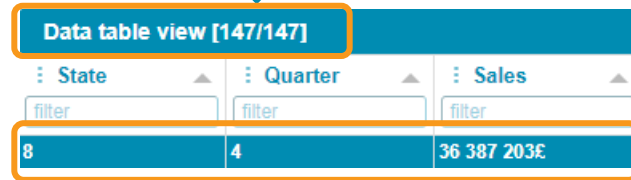

Very popular with our customers, we have decided to deeply enhance the Data Table View feature available in the N4V components. **You'll now be able to use smart filters, groups, aggregation...**

On each column header, a **menu** is available to interact with the Data Table View

Hide/Show the columns
Groups the values
Change the calculation
Change the filter type
Copy the data (to Excel...)

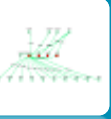

Nb of filtered rows / Total of rows

A **calculation row** is displayed on the header. Aggregation function (sum/count/max...) can be changed in the menu

Group the values by columns (like sections in Webi).
Expand/Collapse the groups...
