New Release 2023.2.0

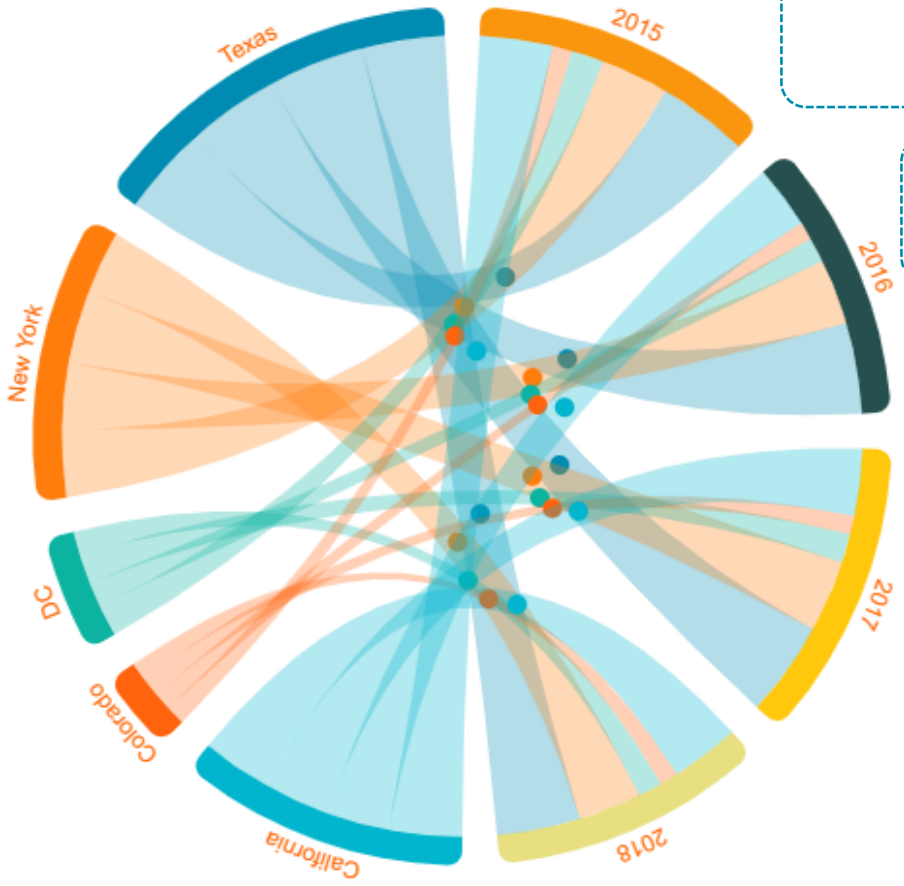
What's new?

08/09/2023

SAP® Partner

N4V^NEW ➲ Dependency Wheel

The new component **Dependency Wheel** has been added to the “N4V Relations” family.

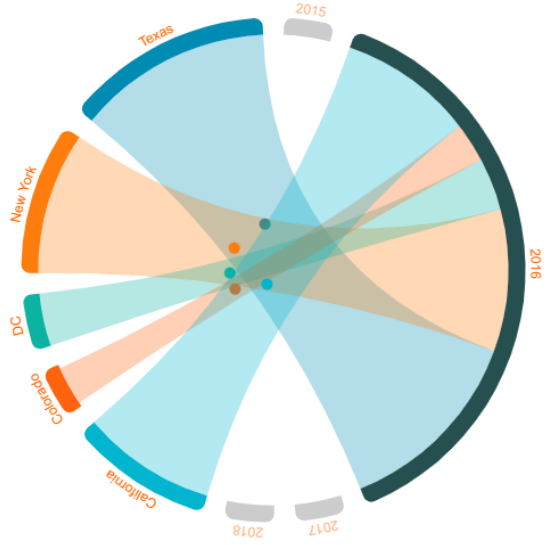


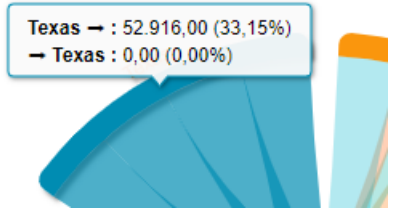
You can consider the **Dependency Wheel** as a **circular Sankey** diagram

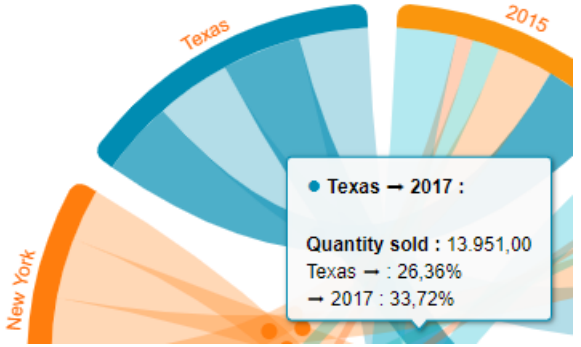
Optional animation can be shown to display the flows/exchanges between the nodes

Collapse/Expand the **nodes** to get a better analysis of your data

Display **tooltips** on nodes or flows to get all information about your data







SAP® Partner

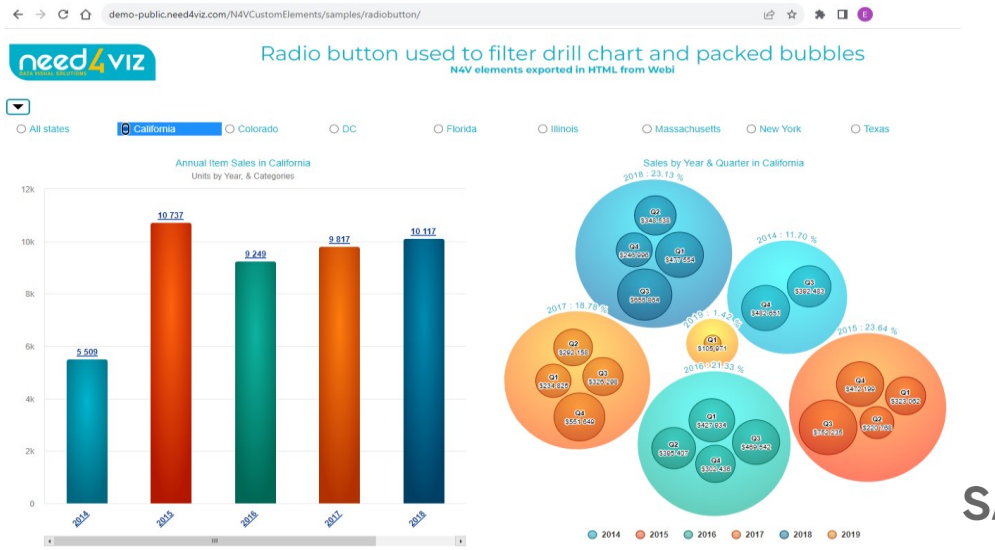
N4V UPDATE ➲ Export HTML

The **Export HTML** of all N4V components has been enhanced.

N4V components exported in HTML format are now **fully responsive**. You can use them in a friendlier and simpler way on your own websites

	Template	Description	Folder	View
01	Drillbar filtering Table Filter	Sample integration of an HTML export of N4V elements from Webi. Click on the drill chart to analyse the data and change the content of a corresponding table filtered details.	/N4VCustomElements/samples/drillchart	See it
02	Radio Button filtering charts	Sample integration of an HTML export of N4V elements from Webi. Select a state in the Radio Button list to display the related charts below.	/N4VCustomElements/samples/radiobutton	See it
03	Double lists filtering chart	Sample integration of an HTML export of N4V elements from Webi. Select a state in the first list and a year in the second list to display the related chart below.	/N4VCustomElements/samples/lists	See it
04	Comparison of charts with double lists of values	Sample integration of an HTML export of N4V elements from Webi. Select a state and a year in the left lists then a state and a year in the right lists to display the comparison of charts below.	/N4VCustomElements/samples/compare	See it

A set of **HTML samples** is now available on your N4V deployment.
You can use them to build your own website pages.
These samples are accessible throught the URL :
*http(s)://your_SAPBI_URL/***N4VCustomElements/samples**



Use the existing HTML files to reproduce easily the navigation between elements outside of Webi

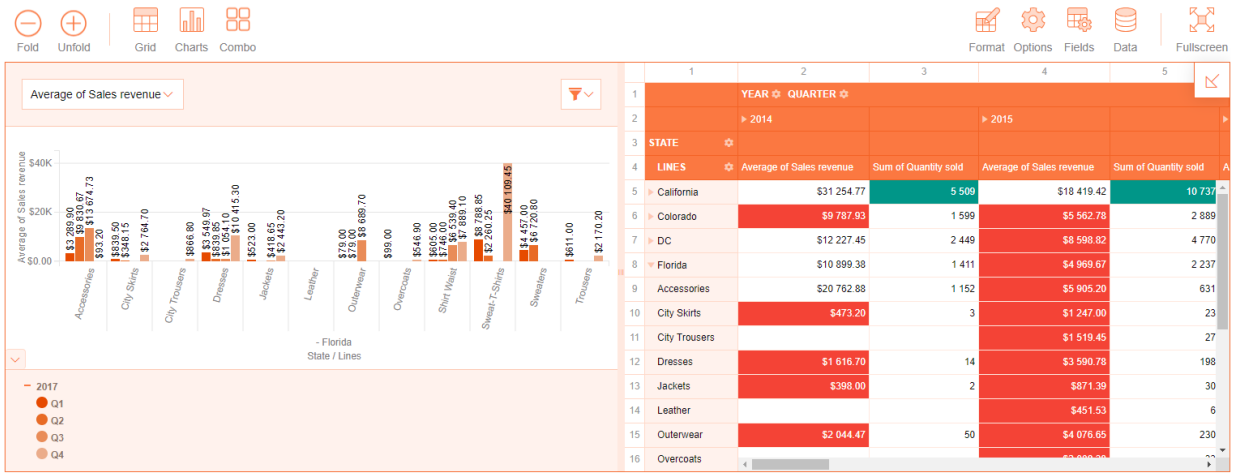
N4V UPDATE ➲ Double Sankey, Data Analyzer...

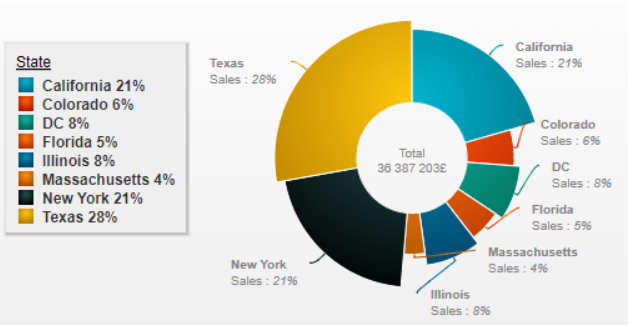
need4VIZ DATA VISUAL SOLUTIONS

Great enhancements have been made in the **Double Sankey**, the **Data Analyzer** (formerly **Extended Pivot Table**) and so many other charts and features

New features (as the drill chart view) have been added to the Data Analyzer to make it powerfull



Double Sankey **rendering** and **hover visibility** have been significantly **improved** to make reading your data even easier



Legend markers in our components can now be optionally displayed as **square** (instead of bullets)
